

FIRST AID POLICY

Policy Custodian: Bursar

Approving Body: Health & Safety Committee

Approved: November 2023

(This policy is shared with Merchant Taylors' Prep)

Context

This policy describes how the School will deliver effective and appropriate First Aid to pupils, staff, and visitors to the School. It describes how the School will meet its legal and moral obligations as in the Occupational Health, Safety and Welfare Management System. This Policy is accessible at MTS via the Staff Handbook and SharePoint site and via the Staff SharePoint page and on the Staff Portal under Operational at MTP.

Aim

To manage the provision of First Aid to all pupils, staff and visitors across the School site and to pupils and staff during educational visits.

Method

This will be achieved by:

- Nominating sufficient First Aid trained staff to cover all areas of the School.
- Providing First Aid training to nominated staff.
- Providing sufficient First Aid resources and equipment across the School.
- Informing staff, parents and pupils of this First Aid policy.
- Maintaining accident records and reporting serious incidents to the Health and Safety Executive (HSE), as required under the 'Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 2013 (RIDDOR).

Responsibilities

Bursar/Head

At MTS, the Bursar is responsible to the Head Master and Chairman of Governors for the health, safety and welfare of pupils, employees and visitors on the School premises. At MTP, the Head of Prep is the Responsible Person. They will seek to ensure that risk assessments are completed by all staff organising and leading activities and that First Aid training, equipment and resources are provided and maintained. They will seek to ensure that the School maintains adequate insurance cover for all core activities, including professional liability for staff providing First Aid. They will seek to ensure that the School's First Aid policies and procedures are made available to staff, pupils and parents via the School website.

All Staff

All Staff are responsible for providing an immediate response to any First Aid incident and informing a trained First Aider as soon as possible.

First Aid Response & Appointed Persons

At MTS, the Medical Centre Staff (School Nurse and Emergency Medical Technician/EMT) are

nominated as the School's Appointed Persons. At MTP this is the School Nurse. They will take charge of any injury or illness, hold the stock for First Aid kits and ensure that the emergency services or professional medical support is called when deemed necessary. In addition:

- At MTS, the Medical Centre will provide duty medical cover from 0815 until 1730 Monday to Friday and cover Sports fixtures and training on Saturdays.
- At MTS, the School Nurse and EMT will operate the Medical Centre and respond to the School medical emergency mobile on 07730 064633, the School radio network or via Reception on 01923 820644. At MTP the Nurse can be contacted on mobile 07510 076 128, direct dial 161 or via reception on 01923 825648.
- Conduct medical liaison with parents, guardians or next of kin.
- Inform the Head Master (MTS), Head (MTP), Bursar, SLTs, Tutors and other staff of any relevant information as required.
- Complete Accident/Incident Report Forms and inform the Bursar (MTS) / SBM (MTP) of RIDDOR accidents, or near misses.
- At MTS & MTP, meetings are arranged as required with parents subject to any issues raised on completing and returning the new pupil medical questionnaire.
- Request written updates of any health needs during the academic year.
- Securitise the individual care plans submitted by parents as required, e.g. diabetes, severe allergies, asthma, and epilepsy.
- Maintain pupil medical information in confidence, give written and verbal information and disseminate as appropriate.
- Hold pupils' own medication e.g. Insulin, if required subject to parental discussion.

Out of Hours / After Timetabled Day/Co-Curricular activities

First Aiders may need to provide support:

- Before/After School/Weekend Activities, the activity leader will provide a suitably qualified first aider for the activity; they will carry First Aid Kits and basic instructions on First Aid. They will carry a mobile phone; emergency contact details and accurate medical information for the pupils involved in the activity (see Educational Visits).
- At MTS, the On Call Duty Mobile holders can be contacted out of hours. (07710 426780) and used to support a call to Emergency Services.

School First Aiders

The School will maintain a pool of trained First Aiders with current, regulated qualifications. The current list of MTS First Aid trained personnel is available on the School's SharePoint site. At MTP the School Nurse and Head's PA hold this list. First Aiders will:

- Take charge of any medical incident they encounter and give emergency first aid.
- Summon emergency services or professional medical help as required.
- Inform the Medical Centre immediately or, in their absence, Reception or the Bursar (MTS)/ SBM (MTP) or SLTs if emergency services are required.
- Complete an Accident/Incident Report Form and submit this to the Medical Centre
- Inform the Medical Centre of all first aid items used in order to allow replenishment.

Informing Parents

Parents will be informed by the Medical Centre (MTS) or School Nurse (MTP) or appointed first aider of all accidents / injuries that require ongoing care or management (at MTP by phone call). Students are encouraged to inform parents if they have required first aid during the day if their injuries are minor and they have been able to continue with the school day. Head Injury Instructions or a note of the incident are sent home with the pupil. Parents are called at the Nurse/EMT/First Aider's discretion. If a student is given any medication, they will be issued with a medicine card (MTS) with student name, date, medication, and dose taken, to take home. A copy of the card is sent to the Medical Centre for recording in student file. At MTP consent for administering medication is provided in advance, parents will be informed of any emergency treatment (by phone call, email or face-to-face).

Taking a Pupil to Hospital

There may be occasions when a pupil's condition requires them to attend Hospital, but is not severe enough to qualify for a priority ambulance service. Should this occur at MTS, the pupil's parents will be advised and asked to collect their child from the School as soon as possible before taking them to their nearest Hospital. Should the parents be unable to get to the site within a short time, a school member of staff (MTS), or appropriate pastoral figure or member of SLT (MTP) will accompany the child to the local Hospital, supported by a colleague if so required. Once the parent is able to relieve the member of staff at the relevant Hospital, they will return to site.

School Holiday and Out of Hours Provision

At MTS, during the School holidays or other periods when the School is closed, the role of Appointed Person is delegated to the School Duty Mobile holder (07710 426780). All on-site security staff will be able to coordinate a response to medical incidents. At MTP, the School Office holds a record of who is on site out of term time and there is an Appointed Person to cover each Breakfast and After School care provision on site.

Off Site School Visits

At MTS, the Visit Leader is nominated as the 'Appointed Person' for the duration of the visit. They will liaise with the School Nurse/EMT to identify the individual medical requirements of those travelling and provide the relevant staff with an information pack before departure.

At MTP an 'Appointed Person' is nominated for each visit, please refer to the Educational Visits Policy.

First Aid Information

In addition to the publication of this First Aid Policy on the School website, the Senior Master at MTS and SLT at MTP will ensure that all teaching staff are informed of the School's First Aid procedures. The School Nurse will:

- Update medical information provided on School notice boards including first aid and the treatment of allergies, asthma, diabetes, epilepsy and other relevant medical conditions.
- Provide designated staff with a list of pupils who are known to be asthmatic, anaphylactic, diabetic and epileptic or have other serious medical conditions.
- At MTS, A list of current First Aid qualified staff is to be found on SharePoint .

First Aid Provision

The School will carry out a risk assessment to establish the level of first aid provision required. This will exceed 1 First Aider to 50 people by providing the following level of medical cover:

Core Activities

A qualified Nurse/EMT is available on call by mobile, radio (MTS) or via Reception throughout the School timetabled day. First Aid trained staff provide cover to all departments and buildings. In EYFS, there is always at least one person with paediatric training with the children at all times.

School Sports Fixtures

At MTS, at least one qualified First Aider will be located on the sports pitches during all rugby, hockey, football or other contact sports. At MTS, where risk assessments identify additional first aid requirements, this will be resourced externally. At MTP, the School Nurse is on call for emergencies. Sports staff, coaches and other staff present will be prepared to assist with coordination of First Aid, liaison with parents and onward movement as required.

Off-site Sports Fixtures

Sports staff and team coaches will act as 'Appointed Persons' and carry First Aid bags, a mobile phone and basic instructions on First Aid. (Replenishment materials are available from the School Nurse

(MTP) or Medical Centre (MTS) upon request).

Educational Visits

Group leaders will act as ‘Appointed Persons’ and identify their first aiders. They will carry First Aid kits and basic instructions on First Aid. They will carry a mobile phone, emergency contact details and accurate medical information for pupils on the visit. For adventurous activities, overseas visits or residential visits, at least one member of staff will be a trained First Aider (including at least one with paediatric training for EYFS children) and all staff will be briefed on how to contact the emergency services.

Departments

At MTS, all Teaching and Support Staff departments will aim to maintain at least one qualified First Aider, who will ensure that a fixed first aid kit is available and replenished. At MTP, the School Nurse maintains the first aid kit contents. Department Heads (MTS), SLT (MTP) will make all staff and pupils aware of the provision in their departments. At MTP, refer to Annex J.

CCF (MTS)

First Aid provision for all CCF activities will be provided by CCF Staff in accordance with MOD policy and as directed by the CCF Commanding Officer. The School Staff Instructor (SSI) is nominated as the ‘Appointed Person’ and will ensure that adequate provision is in place.

Public Events and Productions

Event organisers will conduct a risk assessment to determine the level of First Aid provision required. This will depend upon the event or activities and number of staff, pupils and members of the public attending.

First Aid Materials, Equipment and Facilities

Surgery

A well-equipped Medical Centre will be operated by the School Nurse/EMT during School hours. This will provide a waiting area, treatment room and secure storage for medication and records.

First Aid Kits

First Aid kits are available throughout the School in the locations listed at Annex A for MTS and Annex J for MTP. They will be inspected and replenished each term by the responsible person. Replenishments are available from the Medical Centre MTS School Nurse MTP. Department Heads are responsible for inspecting the provision in their departments and informing the School Nurses of any deficiencies. All School vehicles will be equipped with a First Aid kit. Sports Staff will carry specific Sports First Aid kits to all home and away fixtures. The contents of School First Aid kits (MTS) will be based on the following (please also see Annex J for the MTP contents list):

Minimum First Aid Kit contents:

- First Aid guidance leaflet and emergency contact numbers.
- 20 sterile adhesive dressings of assorted sizes.
- 2 triangular bandages.
- 6 medium-sized sterile non-medicated wound dressings.
- 2 large sterile non-medicated wound dressings.
- 2 pairs of nitrile gloves.
- 10 Sterile wipes
- Resuscitate face shield

Defibrillators

The list of defibrillators located in the School is at Annex B alongside a map of locations. Clear instructions are provided on the equipment, which is available to all staff in emergencies. At MTP, the

Defibrillators are located in the Staff Work Room and outside the Sports Office. At the Nursery and Reception facility, the Manor of the Rose, the defib is mounted externally.

MTS Eye Wash Stations

The locations of eyewash stations are shown at Annex C. These include either cold mains tap water or at least one litre of sterile water or sterile normal saline (0.9%) in sealed, disposable containers.

MTS Burns Kits

The locations of burns kits are shown at Annex D. These are sited at locations where a higher burns risk has been identified and include a range of gel burn dressings.

MTP

The School Nurse carries a burns kit, eyewash kits and facilities are present in the Science Block, Pre-Prep medical room and in the School kitchen.

Emergency Salbutamol/Asthma Kits

The locations of Emergency Salbutamol kits are shown at Annex E (MTS) / H (MTP). These are sited at locations where trained staff can assist pupils (or other staff) whose prescribed inhaler is not available in an emergency.

Emergency Adrenaline Auto Injectors (AAI's)/Anaphylaxis Kits

The locations of Emergency Adrenaline Auto Injector kits are also shown at Annex E (MTS) and Annex H (MTP). These are sited at locations where trained staff can assist pupils / staff in an emergency.

Hygiene / Infection Control

All staff are required to follow “Universal Precautions” to minimise the risk of cross infection during first aid procedures, these are basic hygiene procedures, including hand washing, or use of a gel rub before administering treatment and between treating each individual. Disposable gloves and hand washing facilities are available in each department. Personal Protective Equipment (PPE) must be worn when dealing with blood or body fluids.

PPE includes protective glasses or goggles, gloves and aprons. Blood or body fluids on the ground or other hard surfaces must be removed and the area cleaned. The Head Porter’s team at MTS and the Site team at MTP have access to body fluid disposal equipment and can be contacted via the School Reception, or out of hours, an emergency biohazard kit is located in the Reception Kitchenette at MTS. All contaminated items and used first aid equipment must be cleared. Dressings and single use items must be disposed of in a clinical waste bag or sharps container as appropriate and sealed securely before disposal.

Clinical Waste

Clinical waste is collected as required by an approved contractor. Within MTS, bagged waste is transferred from clinical waste bins weekly or earlier if required, to the main clinical waste bin in the Medical Centre. Locations of clinical waste containers are shown at Annex F (MTS) /Annex I (MTP).

MTP staff are to refer to the Sharps Policy regarding the safe disposal of Sharps (hypodermic needles, diabetic blood testing lancets etc.)

At MTP Items contaminated with blood or other body fluids should be treated in the following ways: -

- Disposable items, should be placed in the yellow bin, which is situated in the medical room.
- Clothing can be cleaned in an ordinary washing machine on the hot cycle;
- Other equipment and surfaces can be cleaned using a hypochlorite solution e.g. bleach (one-part bleach to ten parts water) or Milton 2.

Response to Incidents

Practical guidance to assist MTS staff during an incident is included within the MTS Incident Management Plan. Guidance on what to do when an Ambulance or similar emergency service is required is shown at Annex L - MTS Ambulance & Emergency Services Procedures

Head Injuries

Specific policy relating to Head Injuries is provided in the MTS Head Injury Policy document (MTS) and the Head Injury Action Plan (MTP).

Accident Reporting

All accidents and treatment to Students will be recorded on Accident / Incident Report Forms by the First Aider and sent to the Medical Centre (MTS) or School Nurse (MTP). All staff and adult visitor accidents should be reported using an HSE B1510 Accident Book and submitted to the Medical Centre (MTS) or School Nurse (MTP), with a copy sent to the Bursar's Office at MTS and the SBM at MTP. At MTS, BL510 and Student Accident/Incident Forms are located on the staff SharePoint– select BL510 or the Student Accident Form as appropriate.

Completed forms will be collated and sent to the Bursar at MTS or the SMB at MTP for inclusion in the School Incident Log, or the information transcribed onto the SharePoint Incident Reporting Form at MTS, which will in turn be uploaded to the School Incident Log held on the S Drive.

The Bursar (MTS) will inform the Health and Safety Executive of all reportable injuries, diseases and dangerous occurrences within 10 days of the accident or occurrence, in accordance with RIDDOR 2013. At MTP, the Nurse will submit this report after receiving approval from SLT. Records will be maintained and held in the Medical Centre (MTS) and Surgery (MTP)

These records will include:

- Date and method of reporting.
- Time and place of the event.
- Personal details of those involved.
- Brief description of the nature of the event or disease.

In cases of a reportable death, specified injury, or dangerous occurrence, the enforcing authority must be notified without delay within 10 days of the incident. Over-seven-day injuries must be reported within 15 days of the incident.

Medical Data Protection

All patient information received during assessment, diagnosis and treatment will remain confidential. All patient records will be provided to the Medical Centre and uploaded onto iSAMS and stored securely in line with GDPR.

First Aid Training

The number of contact hours for First Aid Training (time set aside for direct teaching and assessing excluding breaks) for each qualification is as follows:

For First Aid at Work (FAW) / Emergency First Aid at Work (EFAW) the total contact hours should be for a minimum of:

- First Aid at Work – 18 hours over three days
- First Aid at Work Re-qualifying – 12 hours over two days
- Emergency First Aid at Work – 6 hours over one day

Extra contact time will be required for add on training modules e.g., tourniquets etc

For Paediatric First Aid (PFA) / Emergency Paediatric First Aid (EPFA) the total contact hours should be for a minimum of:

- Paediatric First Aid – 12 hours over two days
- Emergency Paediatric First Aid – 6 hours over one day

In all cases, the qualification is valid for three years and a requalification course must be taken before the expiry date of their certificate.

The School offers EFAW & FAW first aid training courses. These are organised by the EMT (MTS) / School Nurse (MTP) and can be requested when needed. All requests for ongoing training and updates should be directed to the First Aid Training Coordinator with dates candidates are available and when training can be delivered, this should be cleared first with department heads as appropriate and teaching cover requirement approved by the Second Master.

All academic staff carry out an EduCare® online First Aid Essentials course, comprising three tested modules with a certificate awarded on successful completion. At MTP staff in conjunction need to pass a practical session with the School Nurse. An annual inset session will deliver MTS site-specific first aid information reflecting procedures in line with the aim of this policy document. At MTP, Paediatric, training and Emergency Aid training are refreshed every three years. We provide site specific information at staff induction and an annual reminder.

Additional training will be given to first aid trained personnel who agree to administer prescription only medications that may be administered to individual pupils to whom they have been prescribed. This must be recorded and updated annually. Guidance and training will be provided on the use of Emergency Salbutamol Inhalers and Emergency Adrenaline Auto Injectors in schools, its administration, recording, reporting use and dose, plus the cleaning and or disposal of delivery devices.

Medications (Students)

At MTS, Parental consent is sought for administration of OTC's (over the counter medications) when completing the new pupil medical questionnaire; POM's (prescription only medications) are held by the Medical Centre and dispensed as required.

At MTS, emergency POMs issued to specific staff members that are taking students on trips must be signed for when issued and returned immediately at the end of the trip. During school holiday periods if the Nurse is not available to sign issued POM's back in, they should be returned to Reception or the Bursar's Office for signature and safe keeping until the Medical Centre can take control of them.

At MTP, parents provide consent to the School Nurse for administration of OTC's. POM's are held by the Nurse and dispensed as required. Medical forms are completed by parents for each child before School visits.

Medications (Staff)

First aid at work does not include giving tablets or medicines to treat illness. The only exception to this is where aspirin is used when giving first aid to a casualty with a suspected heart attack in accordance with currently accepted first-aid practice. It is recommended that tablets and medicines should not be kept in the first-aid box.

Some workers carry their own medication that has been prescribed by their doctor (e.g. an inhaler for asthma). If an individual needs to take their own prescribed medication, the first-aider's role is generally limited to helping them to do so and contacting the emergency services as appropriate. Any medications brought onto the school site by staff must be kept in a safe and secure place that is not accessible to pupils.

Medication Storage

OTC's and pupils own POM's are stored in a locked cupboard in the Medical Centre office (MTS) and the Medical Centre (MTP). The exceptions to this are Anaphylaxis Emergency kits (AAIs, Antihistamine and care plans) and Asthma Inhalers.

Insulin is stored in a fridge in the Medical Centre (MTS) or Medical Centre (MTP); a daily record of temperature is recorded.

A limited supply of OTC medication is held in a locked medicine cabinet in the reception office (MTS) along with the appropriate control documentation for its supply, the Medical Centre controls this. The reception office is locked when not staffed.

CLINICAL WASTE CONTAINERS (MTP)

	Location
Clinical Waste Bin	Nurses Office
	Disabled Toilets (Theatre Foyer, KS3 area)
Sharps Box	Nurses Office

ANNEX J

FIRST AID BOXES (MTP)

At Merchant Taylors' Prep. First aid boxes are situated in:

The Sports Hall
Science Laboratories
The New Barn Theatre
Art & Design Technology/Kiln Room
The School Kitchen
The Off-site Nursery/Reception
The Pre-Prep Medical Room
The Key Stage 2 Foyer of Prep department
Medical Treatment suite
Dovecott Centre
The School Office (kitchen)
The four school minibuses (1x in each)

First Aid Kit- stock of items:

- HSE Leaflet: Basic Advice on First Aid at Work;
 - 20 individually wrapped sterile adhesive dressings (assorted sizes);
 - NB. Blue detectable dressings should be available in food preparation areas
 - 2 sterile eye pads;
 - 4 individually wrapped triangular bandages (preferably sterile);
 - 6 medium sized individually wrapped, sterile un-medicated wound dressings (approximately 12 cm x 12 cm);
 - For Nursery and Pre-Prep department – 4 small sized individually wrapped, sterile un-medicated wound dressings;
 - 2 large sterile individually wrapped, un-medicated wound dressings (approximately 18 cm x 18 cm);
 - One pair of disposable gloves;
- NB Where no mains water is readily available, a small supply of sterile water should be available for eye irrigation
- Resus face shield x1

**First aid boxes must be restocked as soon as possible after use and checked at least once a term. The School Nurse is responsible for restocking as soon as possible after use and checking at least once a term.*

MTS PROCEDURE FOR CALLING EMERGENCY SERVICES

**Merchant Taylors' School,
Sandy Lodge Lane, Northwood. HA6 2HT**

During School Day (Mon-Fri 0800-1800)	Outside School Hours (Weekends, evenings after 6pm etc...)
<p data-bbox="236 815 695 891">Emergency Services Required Location HA6 2HT</p> <ol data-bbox="197 943 718 1285" style="list-style-type: none">1. Call - 112/9992. Inform School Reception via<ul data-bbox="264 1077 564 1200" style="list-style-type: none">• Radio• X4000• 01923 820 6443. Relay relevant information <p data-bbox="245 1335 759 1411"><i>“112/999 Called for XXXX due to an incident at XXXX. I need:</i></p> <ul data-bbox="264 1424 603 1599" style="list-style-type: none">• Assistance;• A Buggy;• Equipment;• Open Gates etc.” <ol data-bbox="197 1688 778 1812" style="list-style-type: none">4. Someone must be nominated to meet and direct Emergency Services to required Location.	<p data-bbox="900 815 1359 891">Emergency Services Required Location HA6 2HT</p> <ol data-bbox="861 943 1445 1200" style="list-style-type: none">1. Call - 112/9992. Call Duty Phone 07710 426 780 to advise of incident and ask for assistance in meeting Emergency Services.3. Relay information <p data-bbox="855 1330 1407 1406"><i>“112/999 Called for XXXX due to an incident at XXXX”</i></p> <ol data-bbox="861 1456 1436 1803" style="list-style-type: none">4. Duty Phone holder to Support by:<ul data-bbox="861 1545 1436 1803" style="list-style-type: none">• Facilitating access - Open Gates etc.• Meet* and direct Emergency Services to required Location.• Standby to offer further support as required. <p data-bbox="810 1850 1391 1968"><i>*Normal place to meet Emergency Services would be 1&2 East Lodge, at the School's Main entrance.</i></p>

Note: The Emergency Control Centre sees your mobile phone location, which as we have discovered is not always the same as the School Post Code so be aware of this.
